

# A single pane of glass...

For all your cloud hosting services.

## What's on offer?

We've built a unified hosting portal for our customers which enables powerful management of their environments

Seamless navigation.

The Macquarie Cloud services Portal is built with full SSO support, meaning you can log in to any of our hosting management tools and browse between them seamlessly.

Unified resource management.

Whether you have a private cloud or public cloud environment with us, you can manage your services and resources easily in just a few clicks.

#### Highly secure.

Full 2-factor authentication support and role-based access control to ensure your data stays in the right hands.

Access your environment in new ways. Secure API access to everything you see in the Portal, you can build your own experience to match your organization's needs. See more at https://api.macquariecloudservices.com/docs
